None raised.

4 PUBLIC CONSULTATION

- a. **To receive and consider any questions from the Public** which may be answered but not debated.
Two members of the public attended to speak about the development on land north of Gloucester Rd, Tutshill. The main concerns raised were:
 - i. Who ensures that the conditions applied to the planning permission are adhered to?
The chairman explained for many conditions the applicant has to apply for them to be discharged at the appropriate time and that it’s the responsibility of the District Council to ensure that the conditions have been met. However, any member of the public noticing a condition being breached can contact the District Council’s planning officer or enforcement officer and bring it to their attention.
 - ii. The recent archaeological survey left the Elm Rd entrance and nearby verges badly churned up. This gate is also not supposed to be used for the development.
The Planning Office advise that the survey is not part of the main development and as such is the sole responsibility of the applicant. The Admin assistant will contact them to restore the entrance.

Tidenham Parish Council

- iii. Is there a plan to provide extra public transport to accommodate the increase of residents in the area? There is no transport plan at present, other than those contained within the development plot, but the Admin Assistant will contact the Planning Office to enquire.
